Interactive Learning Resources
In Various Formats

uCertify CREATE

Introduction

uCertify CREATE is a state of the art course development platform to develop full-fledged, highly interactive and hands-on courses. Course developers have the ability to either start from the ground up or start with a textbook and deliver an interactive and hands on course that comes complete with interactive lessons, videos, knowledge checks, hands-on labs, test prep, glossaries, flashcards, and assessments.

Flexibility

uCertify CREATE can be adjusted as per author requirements

Flexible import of epub, docs, and xml

Start from the ground up or start with a textbook to deliver an interactive course

Publish courses for both web and smart phone apps using Apple iOS (iPhone) and Google Android without any modifications

Use variety of content formats
